PERSONAL PROJECTS

Instagram UI clone
- Cloned Instagram homepage using HTML and CSS. This is fully responsive and works across multiple mobile devices and desktops. Functional across multiple platforms and browsers. The site is easy to maintain for editors.

Travel Photography website
- Made my own Travel Photography Website using HTML,CSS and Vanilla JavaScript. Used DOM events. Added some functions also like overlay sidebar navigation, scrollable Navigation bar, automatic slideshow, modal and onclick play video. This is fully responsive and works across multiple mobile devices and desktops. This site is easy to maintain for editors .
